

CASE STUDY

CLIENT	Private
SECTOR	Doors
LOCATION	Mount Manganui, NZ
APPLICATION	Exterior Entrance Door
FINISH	Aged
COLOUR	Bronze

DESCRIPTION

This exquisite main entrance door was received by Metalier with its grooves already cut out. Metalier Bronze was applied, sanded to a medium gloss level and then heavily patinated. Once the patina was dry it was partly sanded away to produce the polished light areas. The door was sealed with a semi-gloss clear coat. Can you see the door handle? This is coated and patinated to match the door.

CASE STUDY

CLIENT	Private
SECTOR	Doors
LOCATION	Auckland, NZ
APPLICATION	Exterior Entrance Door
FINISH	Moonrock
COLOUR	Brass

DESCRIPTION

This entrance door was completed in Metalier's most popular solvent-based finish, which we have called Moonrock. The finish was lightly patinated and finished with a satin clear coat.

CASE STUDY

CLIENT	Private
SECTOR	Doors
LOCATION	Auckland, NZ
APPLICATION	Exterior Entrance Doors
FINISH	Heavy Texture
COLOUR	Copper

DESCRIPTION

These doors were created using Metalier's solvent textured copper. It is essential when coating exterior doors with a textured finish that they are not subjected to extreme sunlight or weather conditions. The difference in temperatures inside and outside the building may stress a textured coating. These doors were protected with a semi-gloss clear coat.

CASE STUDY

CLIENT	Residential
SECTOR	Doors
LOCATION	London, UK
APPLICATION	Entrance Lobby Doors
FINISH	Curved Pattern
COLOUR	Brass

DESCRIPTION

The entrance lobby doors feature elegant line artwork, precisely machined into the surface using a 'V' cutter, and are finished with Brass Metalier Water-based Metal Coat. This creates a striking entrance to an opulent penthouse located in the heart of London. The doors were clear-coated in semi-gloss.
