

CASE STUDY

CLIENT	Residential
SECTOR	Flooring
LOCATION	London, UK
APPLICATION	Oak Flooring
FINISH	Coated
COLOUR	Classic Gold

DESCRIPTION

Engineered oak was specially treated to highlight the wood's natural grain. Metalier Solvent-based Classic Gold was applied and then texture-brushed to enhance the grain's depth. The boards were then sanded and buffed to add an extra layer of shine. A high-durability clear coat was finally applied to ensure both beauty and longevity.

CASE STUDY

CLIENT	Harrods
SECTOR	Flooring
LOCATION	London, UK
APPLICATION	Flooring
FINISH	Smooth Ingrained
COLOUR	Bronze

DESCRIPTION

This double-fumed European Oak was enhanced by Metalier Bronze ingrained in the floor boards. This flooring in 'The Studio' in Harrods, London was sealed with a highly durable clear coat. The combination of the two materials produced a new benchmark in design.
